Information Session

Example of Modular Structures

Structure-Activity Relationships

- >50 compounds to date
- modular structure
- molecular structure vs. antibacter
- ongoing, iterative process (feedback)
- compounds with >1 + charge are
- level of resistance (Tetra
- word:
- understanding of structure
- and optimization of the

The slide shows a chemical structure with a central green hexagonal core labeled "Core". Two blue nitrogen atoms (N+) are attached to the core, each with a red wavy line extending downwards, representing a tail group. A positive charge symbol (+) is shown above the core. The man is pointing at the structure.

Mission of Madison Trust

Madison Trust creates a dynamic and enterprising funding source for worthy and innovative initiatives proposed by James Madison University faculty and staff and offers investors the opportunity to make their philanthropic mark on the university through donor-funded and donor-directed activity.

Program History

- Inaugural event November 2014
- Over 35 units represented through faculty, staff & student presenters
- More than 200 investors have participated since 2014
- More than 100 faculty, staff & student presenters representing over 90 unique projects
- \$935,000 and counting in private funding

Proposal Submission Process & Timeline

- Late February

Madison Trust

- Friday, March 10, 2023

The screenshot shows the James Madison University website for the Madison Trust grant submission process. The header includes the university name and navigation links for Admissions, Academics, Student Life, Visit, Tuition & Financial Aid, and Athletics. The main heading is "Madison Trust: Innovators Making an Impact". A sidebar on the left lists navigation options: Philanthropic Investors, Faculty Presenters (highlighted), Past Projects, Give, and Staff | Contact Us. The main content area features a "SUBMIT A PROPOSAL" button and a "Deadline: November 18, 2022" notice. Below this, there is a section for "Meanwhile, download these helpful documents:" with links to a grant application preview and a document on accessing funds. A blue arrow points to the "SUBMIT A PROPOSAL" button. On the right, a sidebar titled "For Current-Year Awardees" includes a link to "Access Project Funds", a notice about project updates, a thumbnail for "Appropriate Technology Rural Health Innovation" with a table of statistics, a "Click to enlarge" link, and a "See updated project totals:" section with a "DUKESFUNDER" button.

Madison Trust 2023: The top 10 faculty-, staff-, and student-led innovations will be selected for presentation to our panel of philanthropic investors this coming spring. *Our submission portal is now open.*

SUBMIT A PROPOSAL

Deadline: November 18, 2022

The next Madison Trust innovation funding event will be held on November 10, 2023, both on campus and on Zoom.

Meanwhile, download these helpful documents:

- [Madison Trust grant application preview](#) (serves as a worksheet for your proposal)
- [Accessing, Tracking, and Spending Funds Awarded Through Madison Trust](#)

JMU innovators who present their program, project or research reap the triple benefit of

1. support for budgets up to \$25K with a **Madison Trust grant**,
2. assistance with **positioning your innovation** so you can seek other gifts or grants, and
3. introductions to **colleagues at JMU who can help you** find and pursue still more funding opportunities.

For Current-Year Awardees
